Homework/Extension
Step 4: Select Money

National Curriculum Objectives:

Mathematics Year 2: (2M3a) Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value

Mathematics Year 2: (2M3b) Find different combinations of coins that equal the same amount of money

Mathematics Year 2: (2M9) Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change

Differentiation:

Questions 1, 4 and 7 (Varied Fluency)
Developing Identify whether the amount of money is correct. Coins or notes only, using up to 3 different values of coins.
Expected Identify whether the amount of money is correct. Coins and notes, using up to 6 different coins and notes.
Greater Depth Identify whether the amount of money is correct. Coins and notes, using up to 6 different values of coins and notes. Using a mixture of images, words and numbers.

Questions 2, 5 and 8 (Varied Fluency)
Developing Circle the specified amount in each box where each box contains up to 3 different coins.
Expected Circle the specified amount in each box where each box contains different values of coins and notes, with up to 6 different values of coins and notes.
Greater Depth Circle the specified amount in each box where each box contains different values of coins and notes, with up to 6 different values of coins and notes. Using a mixture of images, words and numbers.

Questions 3, 6 and 9 (Reasoning and Problem Solving)
Developing Identify the box that contains the specified amount and explain reasoning. Each box contains coins only using up to 3 different coins.
Expected Identify the box that contains the specified amount and explain reasoning. Each box contains up to 6 different values of coins and notes.
**Greater Depth** Identify the box that contains the specified amount and explain reasoning. Each box contains up to 6 different values of coins and notes using a mixture of images, words and numbers.

Select Money

1. James needs £3 and 30p to buy a toy. He has circled the coins he thinks he will need.

Is he correct?

⭐D

2. In each box, circle £2 and 50p.

A.

B.

C.

⭐D

3. Ross and Francis are trying to make £3 and 70p from the money in their money box.
Money Box

Ross uses:

Francis uses:

Who is correct? Explain how you know.

⭐D

Select Money

4. Carrie needs £10 and 55p to buy a toy. She has circled the notes and coins she thinks she will need.

Is she correct?

---

5. In each box, circle £10 and 20p.

A.

B.

C.

---

6. Henry and Charlotte are trying to make £5 and 35p from the money in their money box.

Money Box

Charlotte uses:

Henry uses:

Who is correct? Explain how you know.

Homework/Extension – Select Money – Year 2 Expected

Select Money

---

7. Lizzie needs £12 and 67p to buy a toy. She has circled the notes and coins she thinks she will need.

**Is she correct?**

⭐GD

---

8. In each box, circle £13 and 54p.

A.

B.

5 two-pound coins	
	5 five-pence coins
	4 one-pence coins

C.

3 twenty-pence coins	6 two-pound coins
2 two-pence coins	5 ten-pence coins
6 fifty-pence coins	2 five-pound notes

⭐GD

---

9. Kylie and Louis are trying to make £11 and 43p from the money in their money box.

Money Box

Kylie uses:

3 two pound coins,
1 five pound note,
4 ten pence coins and
3 one pence coins.

Louis uses:

4 ten pence coins,
1 two pence coin,
1 one pence coin and
5 two pound coins.

Who is correct? Explain how you know.

Homework/Extension – Select Money – Year 2 Greater Depth

Developing

1. **James is correct.**
2. **A = two £1 coins and one 50p coin circled; B = two £1 coins, two 20p coins and two 5p coins circled; C = one £2 coin and one 50p coin circled.**
3. **Francis is correct because £1 + £1 + £1 + 50p + 20p = £6 and 70p.**

Expected

4. **Carrie is incorrect. She has circled £10 and 15p.**
5. **A = one £5 note, five £1 coins and one 20p circled; B = one £10 note and two 20p coins circled; C = one £5 note, two £2 coins and six 20p coins circled.**
6. **Charlotte is correct because £5 + 10p + 10p + 10p + 2p + 2p + 1p = £5 and 35p.**

Greater Depth

7. **Lizzie is incorrect. She has circled £12 and 62p.**
8. **A = two £5 notes, three £1 coins, one 20p coin, three 10p coins and two 2p coins circled; B = 5 two-pound coins, three £1 coins, one 20p coin, three 10p coins and 4 one-pence coins circled; C = 2 five-pound notes, 6 fifty-pence coins, 5 ten-pence coins and 2 two-pence coins circled.**
9. **Kylie is correct because 3 two-pound coins + 1 five-pound note + 4 ten-pence coins + 3 one-pence coins = £11 and 43p.**
