

Homework/Extension

Step 5: Place Value Charts

National Curriculum Objectives:

Mathematics Year 2: (2N2a) [Read and write numbers to at least 100 in numerals and words](#)

Mathematics Year 2: (2N3) [Recognise the place value of each digit in a two-digit number \(tens and ones\)](#)

Mathematics Year 2: (2N4) [Identify, represent and estimate numbers using different representations, including the number line](#)

Differentiation:

Questions 1, 4 and 7 (Varied Fluency)

Developing Complete the place value charts to represent 2-digit numbers up to 99. Using pictorial support.

Expected Complete the place value charts to represent 2-digit numbers up to 99. Using a variety of pictorial representations and numbers.

Greater Depth Complete the place value charts to represent 2-digit numbers up to 99. Using numbers, words, and some examples of unconventional partitioning.

Questions 2, 5 and 8 (Varied Fluency)

Developing Select the correct place value chart using knowledge of representing 2-digit numbers up to 99. Using pictorial support.

Expected Select the correct place value chart using knowledge of representing 2-digit numbers up to 99. Using a variety of pictorial representations and numbers.

Greater Depth Select the correct place value chart using knowledge of representing 2-digit numbers up to 99. Using numbers, words, no pictorials and some examples of unconventional partitioning.

Questions 3, 6 and 9 (Reasoning and Problem Solving)

Developing Explain who is correct using knowledge of representing 2-digit numbers up to 99 on a place value chart. Using pictorial support.

Expected Explain who is correct using knowledge of representing 2-digit numbers up to 99 on a place value chart. Using a variety of pictorial representations and numbers.

Greater Depth Explain who is correct using knowledge of representing 2-digit numbers up to 99 on a place value chart. Using numbers, words, and some examples of unconventional partitioning.

Place Value Charts

1. Complete each place value chart to show 48.

A.

Tens	Ones
	

B.

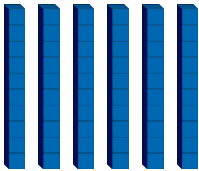

Tens	Ones
	

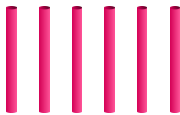

VF
HW/Ext

2. Circle the place value chart that represents the number 56.

A.

Tens	Ones
	

B.

Tens	Ones
	

VF
HW/Ext

3. Chris and Dylan are making the number 23 on a place value chart.

Chris

We need to take 10 away.

We need to add 10.

Dylan

Who is correct? Explain how you know.

Tens	Ones
	

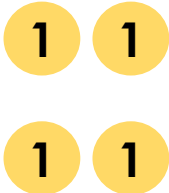

RPS
HW/Ext

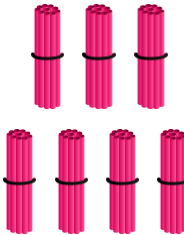

Place Value Charts

4. Complete each place value chart to show 74.

A.

Tens	Ones
	

B.

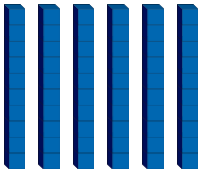

Tens	Ones
	

VF
HW/Ext

5. Circle the place value chart that represents the number 62.

A.

Tens	Ones
	

B.

Tens	Ones
2	6

VF
HW/Ext

6. Bob and Ross are making the number 55 on a place value chart.

Bob

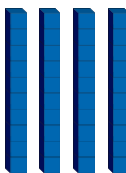

We need to add 10.

We need to add 1.

Ross

Who is correct? Explain how you know.

Tens	Ones
	

RPS
HW/Ext

Place Value Charts

7. Complete each place value chart to show 83.

A.

Tens	Ones
seven	

B.

Tens	Ones
	three

VF
HW/Ext

8. Circle the place value chart that represents the number 39.

A.

Tens	Ones
10 10 10	1 1 1 1 1 1 1 1

B.

Tens	Ones
two	19

VF
HW/Ext

9. Lucas and Oliver are making the number 46 on a place value chart.

Lucas

We need to add 16 ones.

We need to add 1 ten and 6 ones.

Oliver

Who is correct? Explain how you know.

Tens	Ones

RPS
HW/Ext

Homework/Extension

Place Value Charts

Developing

1. **A. 8 ones; B. 4 tens**
2. **B**
3. **Dylan is correct because the number represented on the place value chart is 13 and 10 would need to be added to make 23.**

Expected

4. **A. 7 tens; B. 4 ones**
5. **A**
6. **Bob is correct because the number represented on the place value chart is 45 and 10 would need to be added to make 55.**

Greater Depth

7. **A. 13 ones; B. 8 tens**
8. **B**
9. **They are both correct because 16 ones and 1 ten and 6 ones represent the same number. The number represented on the place value chart is 30, so adding either would make 46.**
