

Zoo

Sensory Bag

You will need:

Zoo Animal Cut-Outs

Zoo Playmat

Table confetti

Glitter

Clear hair gel

Zip-lock bag

Laminator

Method

1. Cut out and laminate the Zoo Animal Cut-Outs.
2. Add hair gel, table confetti, glitter, and the laminated zoo animals to the bag. Remove as much air from the bag as possible, close the bag, and tape the top with duct tape so gel and cut-outs don't seep out.
3. Tape the edges of the bag to the Zoo Playmat.
4. Then the fun begins - can the children move the animals around into their pens?
