

## PSHE Planning

**LI: To identify who can help us at school.**

I can recall who helps us when we have problems in school.

I can identify where we can find people who help us.

Discuss what problems we may have in school - and who we need to help us.

Read through each School Problem Scenario cards and discuss who could help in that situation in school and where we can find them.

Explain that it could be more than one member of staff who could help.

Cut out the stick puppets. Who is the headteacher in Ifield School? Who is your Teacher? What are the names of your Teaching Assistances? Etc. Discuss their role in Ifield School with dealing with different problems (such as if they are hurt, need a drink etc).
