

# Counting Pennies

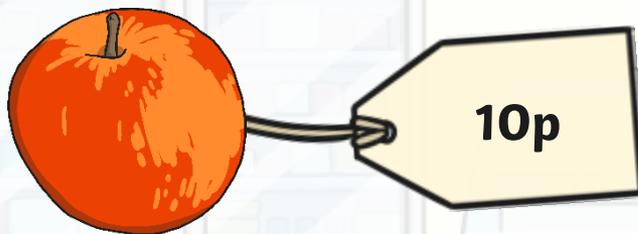

Welcome to my shop!

Look at the items in my shop and click on the coins to pay for them. Remember to count the coins carefully.

Once you are happy with your answer, click me and I will ask you a question.

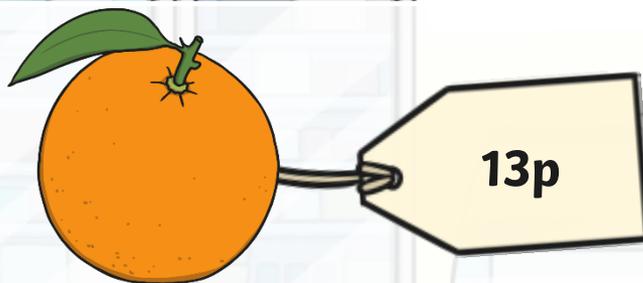

Thank you!  
How many pennies did you give me?  
How could we check?

next

Thank you!  
If I put the  
pennies in  
different  
places in my  
till, would  
there still be  
the same  
amount?

next

Thank you!  
When we are  
counting,  
what number  
always  
comes after  
12?

next

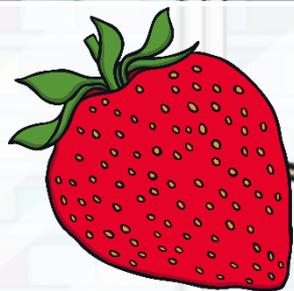

Thank you!  
How did you  
count the  
pennies? Can  
you explain  
what you  
did?

try again

Thank you!  
How do you  
say this  
number? Is it  
fiveteen?

Thank you!  
How do you  
know that  
you have  
counted 17  
pennies?

try again

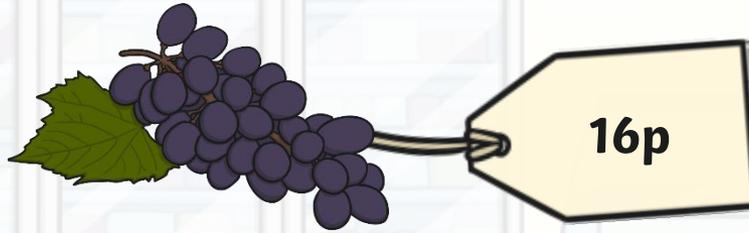

Thank you!  
How did you  
make sure  
that you only  
gave me 18  
pennies?

try again

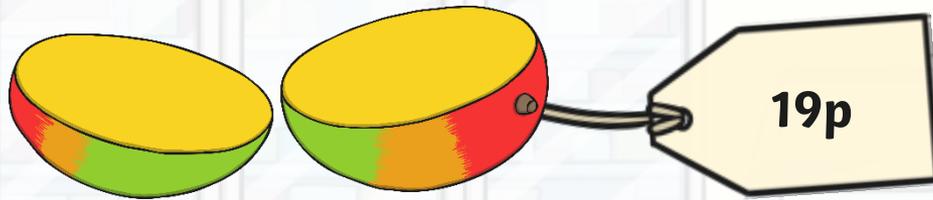

Thank you!  
Do you have  
any counting  
tips for me? I  
keep getting  
in a muddle!

try again

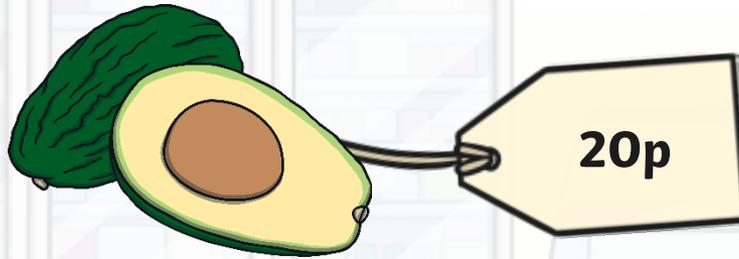

Thank you!  
How could I  
arrange the  
coins to  
check how  
many there  
are?

try again

Thank you!  
How many  
coins do you  
have left?

A blue-bordered rectangular area containing 21 brown coins arranged in three rows: the first row has 7 coins, the second row has 7 coins, and the third row has 7 coins.

try again

A blue-bordered rectangular area containing 20 brown coins arranged in two rows: the first row has 10 coins and the second row has 10 coins.
