

Pets

Home Learning Challenges

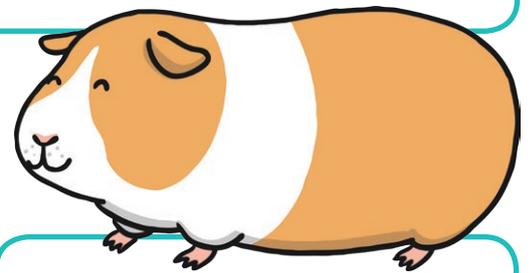

Draw a picture of your pet or pets. Can you write their names? If you don't have a pet, draw the pet you would like to have and make up a name for them.

Write a sentence about your pet and describe what they look like, what they are good at and what they like to eat. If you don't own your own pet, you could write about a school pet or a friend's pet.

Do you know how to properly care for your pets and other animals? Use a book or the Internet to research how to best care for them. You could write down some ideas to share with your friends.

Ask your friends and family what pets they have at home. Count how many of each animal there is. You could create a tally chart or pictogram to represent how many of each animal there is. Which animal is the most popular pet?

Find out information about events run by your local animal shelter. You could take a poster in to school, take part yourself or make something to help, such as baking cakes or creating cards to sell.

Have a look through your house for any old towels and blankets that you don't use anymore. Could you donate any to your local animal shelter? You could even buy some new ones.
